

YOUR DRIVER FOR VALUE ADDED SERVICES

The Würth Group is the world's market leader in its core business, the trade in assembly and fastening material. It currently consists of over 400 companies in more than 80 countries and has more than 65,000 employees on its payroll. 30,000 of them are permanently employed sales representatives.

In the business year 2013, the Würth Group attained a sales volume of EUR 9.75 billion. In the core business, the Würth Line, the sales range for trades and industry comprises over 100,000 products: from screws, screw accessories and anchors via tools to chemical technical products and personal protection equipment.

The Allied Companies of the Würth Group, which either operate in business areas adjacent to the core business or in diversified business areas, round off the range by offering products for metalworking and metal processing industries, hand tools, material for electrical installation and electronic components.

They generate more than 40 percent of the Würth Group's sales volume. This emphasizes the Würth Group's claim that not only wants to satisfy its customers, being optimistic, dynamic and fully aware of its responsibility. No, it wants to inspire and fill the customers with enthusiasm. Demanding and promoting performance is an integral element of Würth's corporate culture.
