

## Company Profile

With a tradition of over 115 years, NOBISKRUG has been involved in shipbuilding since before the term superyacht was even coined. Drawing upon its extensive experience in building seagoing vessels, NOBISKRUG turned to yacht building completing its inaugural project in 2000 with the 92m M/Y Tatoosh. Since then, NOBISKRUG delivered a select portfolio of innovative and bespoke superyachts, reflecting the company's pledge to build superyachts that will last for generations to come. With the delivery of the Sailing Yacht A, the German shipyard once again confirmed their powerful presence among the leading superyacht builders, while its latest delivery – the high-tech and environmentally-conscious, hybrid superyacht Artefact – cements NOBISKRUG as a true innovator in its field.
