Muehlhan Group

Industry leader Muehlhan sets quality benchmarks in the Surface protection of ships, Oil & Gas platforms, Wind energy plants (on/offshore), Offshore transformer platforms, Chemical plants & Filling stations, Pipelines and Bridges.

The Group is firmly rooted in its tradition of Hanseatic German values – customers can rely on the quality of the service teams. The staff of over 2.300 features certified welders, corrosion protectors (on/offshore), IRATA industrial climbers, wind energy specialists, scaffolding builders (on/offshore) and experienced project managers. Services in scaffolding, encasement, and steel construction complement the offering.

The company was founded in Hamburg in 1881. The Group now operates 30 international locations along the big shipping routes of Europe, Asia and America.
