

HEINRICH RÖNNER GROUP

With joined Forces

The HEINRICH RÖNNER GROUP as a system house provides state of the art system solutions and products designed to meet the exact customer requirements not only for ships of all types and sizes but also to satisfy the special requirements for the up-coming offshore industries.

For more than 30 years the HEINRICH RÖNNER GROUP offers accepted and certified work done by our dedicated and qualified work force using modern machinery in up-to-day factory installations.

Our operating headquarter in Bremerhaven is managing and supervising more than 1.200 personnel in 16 companies in Northern Germany.

Besides our strong position in metal work for ships, yachts or steel waterway constructions or offshore equipment and services we also offer ship repair and maintenance services products and or even a crew for your ship.

Several qualifications like DIN EN ISO 9001
DIN 18 800 part 7 / DIN 15018 (welding)
